Projects

HTML , CSS , JS (ES6+) , REACT, NEXT JS , RDBMS (MYSQL) , N-RDBMS (MONGO DB) , SOCKET IO , EJS, C++ , OOPS , PYTHON, BAAS

TOOLS : VS CODE , GITHUB , PYCHARM , AI

SEMBUZZ

REDUX | REACT | APPWRITE

Developed and deployed a responsive React based web application enabling students to publish and share creative and technical content in an organized manner.

NEVEROLD

SUPABASE | REACT | TAILWIND CSS | VS CODE

Developed a campus marketplace web application that enables students to buy and sell pre-owned items within their college community. Implemented *cart system, user authentication, and verification badge* feature to enhance usability, trust, and user experience. Designed a *responsive UI* with dynamic product listings and seamless database integration for real-time updates.

IOT SENSOR MONITORING PORTAL

JS | MONGODB | EXPRESS JS | EJS

ISM Portal (IoT Sensor Monitoring) is a real-time web dashboard for visualizing data from multiple IoT sensors installed in home/workplace and sensor data can be accessed from anywhere anytime.
